

Bring stuff

These just
don't interest
me!

If you're wondering why I made this, the reason is simple really. I needed something to be passionate about and I just am not passionate about anything so this was the result.

Here we go!

Your problems, my problems,
Social Media, Politics, books,
your relationship, ever colouring
pictures, drawing, school, conversations,
human interactions and even gaming.

That was it guys,
there's only one left:
Writing.
